ATTEMPTED BREAK IN TEWKSBURY

Burglars who attempted a break at the store of William Nolan, on Main Street, Tewksbury, at Foster's corner, during the week-end, were frightened away by the sudden appearance of officers John Sullivan and Eugene Manley. The officers drove up to the store to test the doors about three a.m., and hearing the sound of someone running from the rear of the store, one of the officers dashed to the back of the place, while the other drove toward Salem road with the intention of heading off the fleeing men. A car sped up Salem road, and the thieves eluded their pursuers. A check of the scene by police revealed the fact that a window had been removed by the intruders, but apparently no goods were taken. An investigation is being conducted by Police Chief Cyril L. Barker.

Window Breaking . . .

Spring, it seems, means more than a crocus or two on the lawn of the Winchester Savings Bank and ducks on the Aberjona.

Unfortunately the current season is following the usual pattern, and again this year the late March and early April police blotter is generously sprinkled with complaints from numerous quarters that young boys have launched this year's window breaking campaign.

The time to ward off the arrests and the youngsters have been turned loose in the great outdoors. And always there remains the tempting windows panes that require only the effectual throwing of a stone to produce the lovely tinkling sound of breaking glass. It is a perennial boyhood pleasure.

If the evidence pointed to the very early school age group, the action would be almost excusable. But investigations shows that, the source of the mischief lies with junior and high school age boys who should by now have learned some sort of respect for others property.

A gentle reminder and a perhaps less gentle warning from Dad would seem to be in order about now.

Don't Be Late In '48

By PAUL D. EMMONS

Well, 'round and round she goes, and where she stops nobody knows.

Meaning, the merry-go-round of inflation, only there's nothing merry about it. On the contrary it is wholly gloomy and damnable, and an augury of disaster in the future.

The American people have got to get into that fact, and face it flatly and squarely. His going to affect all of us and we should all wake up to what's going on, it's ultimate effect, and how to avoid it.

As a nonpartisan observer in the record article of the Senate appointed to investigate the railway labor dispute. They have recommended an additional pay hike of fifteen and a half cents an hour.

Every government board that is appointed always recommends a pay hike. They always succumb to the union argument that the workers cannot meet the increased cost of living with their present wage scale.

And none of them have the guts or the brains to perceive that their action is authorizing additional pay hikes in just what increases the cost of living.

That fifteen and a half cent increase will result in increased fares and freight rates, on top of and thereby increase the cost of doing business all along the line, and cause increased prices to the consumer.

Then we shall get another barrage of new wage demands to meet this new increase in prices. This devil's treadmill can't keep up indefinitely and the American people should wake up to that fact right away and stabilize matters through voluntary action.

Nobody likes to oppose an increase in wages. It's an unpopular thing to do. But there won't be anything popular about the bust which is sure to follow this spiral if we don't act and act soon.

agee, profits, and prices are all interdependent. They should be stabilized through a co-operative get together of all parties concerned.

That would really be the biggest thing the American people ever pulled off. It would destroy a lot of purpose and action which would assure the future of democracy.

That last [illegible] is intended for the threat of Communism. Communism must keep itself strong both internally and externally if it is to survive.

A depression caused by this inflationary spiral would sap the internal strength of democracy to the point where Communism might be successful in its persistent attempts to overthrow us.

This price spiral is also ruinous to our war effort—if we have to make one.

Consumer price at home and we can consumer our enemies abroad—if we have to.

Both things call for a sound sense of values and patriotism. Let the American people prove that they have those qualities, and the necessary common sense to exercise them in time.

"New Look" In Kitchens On Display In Winchester

One of the surprises many snow-bound Winchester residents received when the snows disappeared and more leisurely tours down town became possible was the attractive kitchen store, the Rutherford Equipment Company, open at this writer, at 397 Main St. by Mr. and Mrs. John A. Rutherford, long time residents of Winchester.

Those who have had an opportunity to visit the store have expressed real delight in finding there such an array of nationally advertised kitchen equipment, all the way from pots and pans to the latest models of cabinet sinks, refrigerators, and gas or electric ranges. Best of all, however, is a natural model kitchen—varying from one making the most of a small area to one which might well be a "dream kitchen" right out of a magazine. Its stream-lined plan—counter top with inset sink receives especial attention as through special construction it is guaranteed against water seepage, a difficulty encountered so frequently.

Mr. Rutherford offers a service to those interested in improving their kitchen facilities which is very helpful as he will be glad to make a plan for any kitchen which makes the most effective use of the space available during this to scale so that one can visualize just how the proposed change would look. An additional advantage is that some may wish to start with just one adding additional units at a later time. With a definite plan for the whole kitchen in addition, mistakes can be avoided which frequently might cause considerable unnecessary expense later. Those interested in budget planning will be pleased to know that they can buy on as low time as they could anywhere in Boston. Easy payments can be arranged without fuss or bother. Another service at the Rutherford plan for coordinating the installation of a kitchen in such a way that the home is disturbed a minimum period of time.

Winchester residents should make it a point to visit this store in the near future. They are very welcome to drop in at any time just to look around and do not have to feel obligated in any way. That long-neglected room, the kitchen, is now receiving the attention it deserves as the heart of the home, where more of the hours of one's waking hours are spent, than in any o her. Visit this store and enjoy seeing the new ideas for making kitchen tasks easier and more pleasant.

Noble And King Concert Here Draws Capacity Audience

A capacity audience filled the High School auditorium on Wednesday night as the Winchester committee for the "Two Million For Mount" Holyoke Fund" presented Harry Nobel, pianist and baritone, and Frances King, soprano, in a concert to benefit the college building fund.

Noble and King opened the Wednesday evening program with four bit selections from the score of the Harburg Lane Broadway success, Finians Rainbow. Most popularly received were the well known "Old Devil Moon" and "If This Isn't Love" From the same musical also came Harry Noble's own arrangement of "That Great Come and Get It Day" and "Something Sort of Grandish."

"Love Is Busting Out All Over" which took the popular musical world by storm not so long ago when Carousel was running on Broadway, and the Soliloquy from the same score were featured in the second group of songs rendered by the couple who have been currently appearing at Boston's Hotel Somerset. COMPLETES COURSE FOR TOWN HOSTESS

Mrs. Florence Salyer of 4 Black Horse Terrace returned home yesterday fom New Yok City where she completed a course of instruction preparing her to represent the Welcome Wagon Service Company as a hostess in Winchester.

Welcome Wagon Service was originated in 1928 by Thomas W. Briggs, a newspaperman of Memphis, Tenn., who adapted a custom of pioneer days to present day conditions. A student of American history, Mr Briggs was stirred by the romatic tales of the rugged men who blazed their trails to anew land across the western plains. As the covered wagons of those pioneers lumbered toward the frontier, homesteaders from the scattered settlements along the way met them in "welcome wagons' with food and water to refresh the travelers at the end of their long ordeal.

That gracious tradition lives on today, in welcome Wagon Service. A modern version of old-fashioned hospitality is extended to the families of a community at the crucial moments of their lives. Daily, in 1947, throughout the United States and Canada—In more than 600 towns and cities—over 2,500 Welcome Wagon Hostesses carried the good wishes of the townspeople to 500,000 families—to newcomers, to young women about to be married, to the mothers of new babies, and to those moving from one home to another within the community.

The Welcome Wagon hostess knows her town, and wherever she goes, she carries word of its outstanding features—its libraries, churches, newspaper, parks museums, youth groups, welfare associations, banks shops, radio stations, restaurants, schools and services.

School Boys Open Drill For Spring Baseball Schedule

CYO Organizes Baseball Team

Preliminary steps in the Organization of St. Mary's C. Y. O. baseball teams have been taken by Father Supple of St. Mary's First formal practice will begin soon, although many of the boys have been working out on their own already.

Vincent Erhard will coach the Intermediate team this year, and Henry Barry and Fred Keithe will coach the Junior and Midget teams, respectively.

The Midget division is something new at St. Mary's this year .The team will be made up of boys from 10 to 12 years of age.

The teams will play the regular Catholic Youth Organization League schedule and also play non-league games.

This year's prospect for the Intermediate team include Henry Barry, Richard Farrell, Frank Errico, John O'Brien, John Nowell, Edward Kleever, Leo Williams, Donald Kenton and Fred Patterson.

Candidates for the Junior team are David Barry, Tom Dee, Reynolds Goodrow, James Walden, Edward Crowley, John Farrell, Thomas Quine, Richard Errico, John Uunderwood, Aidan Underwood, Franklin Lentini, and John Di Iorio.

Rifle Team Tops Arlington In Slim Lead

The Red and Black rifle team won its fourth straight shoulder to shoulder match Monday night with a close victory over the Arlington boys rifle team at the Arlington Police Range. The score was 475-467.

The girls team did not fire a match this week but they will take on the Arlington girls team at Arlington on April 8th.

The victorious marksmen of last Monday night and their scores are Bob Oxsford, 99, Johnny Richmond 98, Dick Richmond, 97, Chuck Hart 94, and Pete Dillingham, 87.

All the members of the Winchester High School Rifle Club are shooting qualification courses for the awards given by the National Rifle Association.

The National Rifle Association sponsors all small arms clubs and teams in various ways. The Association presents a series of badges to those persons who qualify by getting good results on the target range.

The awards vary in degree and importance with the efficiency of the boy or girl. The first step in the climb up the ladder of good marksmanship is called the Pro-Marksman. From this, the awards, in the form of metal badges, range upwards till the top honor, Distinguished Rifleman, is reached. In all, there are twelve steps from the bottom to top.

The National Rifle Association sets the standards for each position.

Over one hundred boys and girls of the High School Rifle Club are now entering their best targets, whether from match or practice, in the competition for the badges. The results will be announced by rifle coach Carl E. Peters at the close of the season in May.

80 Turn Out For Squad In First Session

Candidates for the Winchester High School Baseball team reported to coach Ed Bartlett for the first practice last week. Approximately 80 diamond hopefuls turned out the first day.

There have been five practice sessions in all. The good weather enabled coach Bartlett to hold sessions on Monday, Tuesday and Wednesday of this week.

After Wednesday's practice the squad was weeded down to approximately 40 boys.

There are nine letter-men returning from last year's team. They are regulars, Sam Bellino, left fielder and captain, Al Switzer, first base; Gen Donaghey, catcher, Verri Slack, center field; and Paul Roche, right field. Roche, however, may be switched to third base this year. The other returning lettermen are substitute infielders Dave Coon and Henry Horn, and pitchers Dave Eldridge and Bob McElhinney.

From this years prospects, Carl DeFillippo, and Lem Priest may form the keystone combination at short-stop and second base respectively. Dick Carroll, a left-handed pitcher, is expected to help out the very important mound corps.

This is the first year as high school baseball coach for Ed Bartlett. If he does as well with the baseball team as he did with the basketball five then the Red and Black baseball record will be greatly improved over last year's admittedly poor showing.

Winchester will start the season on Tuesday, April 20, with a game with Wakefield at Winchester.

—Robert Nichols, 275 Main Street, cashier of the New England Mutual Life Insurance Company, retired March 31 under the Home Office Retirement Plan. He was educated at Harvard University and has been associated with the company continuously for the past 43 years, being elected cashier in 1927. He is a member of the Harvard Club of Boston.
